

Communities and Experts Unite to Prevent Human Trafficking in Disaster Contexts

# Global Action for Freedom 2026

When disasters strike, vulnerability rises – and so does the risk of human trafficking.

## A Global Movement for Protection in Crisis

When disasters strike, vulnerability rises – and so does the risk of human trafficking.

Global Action for Freedom 2026 brings together communities, organisations, and global experts to take action where it matters most:

- Preventing trafficking in disaster contexts
- Strengthening global collaboration
- Driving real, practical solutions

## What Makes This Initiative Unique

- Launch of the first International Standard for Counter Human Trafficking in Disasters
- Global participation through community-led events worldwide
- Collaboration between local leaders, survivors, NGOs, and international agencies

## Why It Matters

Disasters create conditions where exploitation thrives:

- Displacement
- Economic instability
- Breakdown of protection systems

This initiative ensures response efforts protect – not expose – vulnerable communities.

## Be Part of the Movement

- RAISE AWARENESS.
- TAKE ACTION.
- CREATE IMPACT.
